Awnings with
a spirit of adventure...

Ventura Neptune Marine & Verde

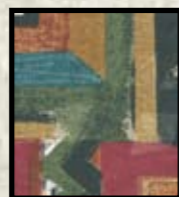

Specially made for the UK Market the Neptune awning is the flagship of the Ventura range. The soothing shades of green or blue harmonise with the open air and provide a peaceful and private haven of relaxation. This awning can be varied to suit the ever-changing needs of the family and weather. The removable zip-out panels can be interchanged for maximum flexibility. There is a choice of steel or Fibre frame, including canopy poles in all sizes. Neptune is made of heavy Isacryl and has a coated polyester roof. Supplied with Fix-on brackets, awning and frame bags, curtains with easy to use rods, pegs, draughtskirt and wheel arch cover.

CURTAINS

Ventura Trident Terracotta

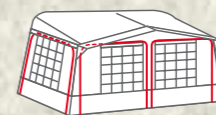

A fashionable new polyester awning of outstanding value. The Trident has the same facilities as other more expensive models and is available in the UK for the first time. The Danish design of the Ventura awnings means that you can expect the best fit on the differing shapes and designs of UK and Continental caravans. The soft warm earth tones of Terracotta and natural grey offer a feeling of home comfort in a holiday setting. The Trident package contains all the same items as Neptune, style, attention to detail and flexible zip-out panels, at an unbelievable price.

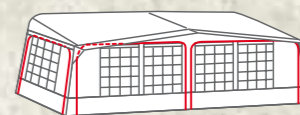

This range is a limited edition for it's introductory year.

BASE PLAN

Ventura Annex

One Tall Model to fit both the Neptune and Trident awnings.

An optional extra in coated polyester, which enables you to extend your awning space for the way you want to live.

Remove either side panel, transfer the curtains to the mosquito and the opaque window panels. A walk in annex for kitchen, storage, bedroom - the choice is yours.

Range fits vans between heights 230 and 250 cm.

THE CORRECT SIZE

To ascertain the correct size, you need to know: Caravan make, model, year, and "A" measurement as follows: Place the caravan on even ground. Measure from ground level at most forward point of channel to most rearward point of awning channel, and straight down to the ground. B shows Cadet distance between rafters.
